 the High and Mighty Lords, the States-General of the United-  
 Provinces.*

**T**HE States of Holland and West-Frisia.  
*Land* appearing in a Body in the  
 Assembly of the States-General, ac-  
 quainted their High and Mighty  
 Lordships, That having with the  
 deepest Affliction and Sorrow of Soul received  
 the Mournful and Unhappy News of the Death of  
 His Majesty of Great-Britain, of most Glorious  
 Memory, they immediately reflected on the very  
 great Loss which has thereby happened to the  
 States of the United Netherland, and particularly  
 to their Province in this dangerous Conjunction ;  
 being deprived of that Support and that Band  
 by which the Members of their Province, and the  
 Union of the respective Confederated Provinces had  
 been link'd and held fast together. That the  
 States had lost their chief Head, as well by Sea  
 as by Land, who had hitherto by the Grace and  
 Blessing of God so often defended them against  
 their Enemies, with the hazard of his own Life  
 and Person. That we were all deprived of that  
 great Credit and Authority, as also of that most  
 Wise and Prudent Conduct, by means whereof  
 not only so many Princes and Potentates had en-  
 ter'd into Alliances with this State, but even the  
 Allies themselves were knit together as in one  
 Body against their Enemies, and had hitherto so  
 unanimously pursued the Interest of the Common  
 Cause ; That the States of Holland and West-  
 Frisia are so highly sensible of this Misfortune  
 A

and the Consequences thereof, that they have been almost in despair of being able to make sufficient Provision against them; But since this Stroke comes from Almighty God, and the same Hand that hath wounded us can heal us again, they have thereupon in expectation of God's Blessing, resolved to do, and put in execution, every thing that is in their Power, for the Preventing these Evils, and to make use of all those Means, which God has put into their Hands for that purpose; That in so weighty a Matter they could think of nothing more Powerful and Effectual, than that the States of the respective Provinces, and the Members of each of them, should join Hands together, and cultivate one with another a perfect Unity, Love, and Mutual Confidence, and by that Means keep firm together the Band whereby these Provinces are united, and maintain in this Dangerous Conjunction the Concerns of this State in a good and strict Correspondence, and a Reciprocal Harmony both at Home and Abroad, for the Common Welfare; That furthermore it was extremely necessary, that the Consternation which the said fatal and most unhappy Accident has already so justly, and with so much Reason caused, and may still occasion, as well in this State in general, as in the several Provinces thereof in particular, as likewise among all the Allies, should be removed with all the expedition possible, so that the heavy Consequences which might otherwise result therefrom, may be prevented; That for that end, in their Judgment, nothing better can be thought on, than that the Confederate Provinces one with another, and their respective Members together, should give a solemn Assurance of their constant and immutable Intention and Resolution to stand by this State and their Allies with all their Power, and cordially to embrace the Common Cause together with the Confederate Provinces, and the said Allies, with the utmost Zeal, Firmness and Heartiness, and that the like Declaration and Assurance should be given to the said Allies of this State; That they had begun to do so among themselves, and that all the Members of their Assembly had, with one Consent, declared it to be their sincere Intention to cultivate both among themselves as Members of that Assembly, and also with the several Provinces, all Unity, Love, and Mutual Confidence, and by a Reciprocal good and strict Correspondence to Maintain the Concerns of this State, and the Provinces thereof, for the Publick Welfare and Preservation; and furthermore to embrace the Common Cause, together with the Confederate Provinces, and the Allies of this State, with the utmost Zeal, Firmness, and Heartiness.

That the States of Holland and West-Frisland, having received their High and Mighty Lordships Letter of the 23d Instant, wherein they通知 the said Mournful and Unhappy Accidents and having taken into Consideration what they desired of them, namely, That they would prepare to take and form such Provincial Resolutions, relating to the Publick, as in so very weighty a Conjunction they shd judge necessary for the Service, Preservation and Welfare of this State, and send them into this Assembly as speedily as might be, to be here opened; The abovesaid States found themselves under an Obligation, heartily to thank their High and Mighty Lordships for the same,

and the more, because by that means an Opportunity and Convenience was given them of making this present Proposal in this Place; That they judged the Matter to be of so much weight, that it was their Duty to appear in this Assembly in a full Body; and that they were therefore come in that manner, in the first place to testify to their High and Mighty Lordships, the very great Sorrow and Affliction they were in, by reason of the aforesaid Misfortune; and well knowing the Loss which this whole State suffers, to Condole with their High and Mighty Lordships for the same, and to shew how much they partake therein; That considering the ill Consequences which may proceed from thence, and the Remedies which are fit to be applied, they had thought good, pursuant to what they had judged expedient among their own selves, in the sincerity of their Hearts, solemnly to declare to their High and Mighty Lordships, that as yet they cannot see how this State can be saved in this dangerous Conjunction, or the Common Cause supported with the Allies, unless the said Reciprocal Love, Unity and Harmony between the respective Provinces be laid, as the general Basis and Foundation of all, and that the Union thereof be inviolably preserved; That on these Grounds, cordial and vigorous Resolutions be taken for the Defence of their Country, and the Support of the Allies of this State, and that these Resolutions be executed with Firmness and Zeal, and the necessary Supplies provided, and that a full Assurance thereof be given to the said Allies; That how troublesome and difficult soever the Times may be, the said States have this Confidence, that proceeding in this manner, we shall yet, with God Almighty's Blessing, be able to continue in Safety, and with the assistance of the Allies of this State, to prevent and divert all the wicked Contrivances and Attempts of our Enemies, against Us and our Allies; That the said States did therefore come hither to this End, to give their High and Mighty Lordships an Absolute and full Assurance, that they were firmly and unalterably Resolved to cultivate such a mutual Love, Unity and Harmony, as is before-mentioned, with their High and Mighty Lordships, and the States of the several Provinces, and likewise inviolably to maintain the common Union, and laying aside, as much as is possible, all particular Passions and private Ends, on these Grounds to assist them in taking such cordial Resolutions as shall be requisite for the carrying on the common Defence, the Preservation of their Liberties, and the Continuance of the Exercise of the True Reformed Religion, and likewise the perfect Observance of the Alliances and Engagements made with Foreign Kings, Princes and Potentates; and that they are ready to put these things in execution, and to pursue the Measures already taken, to contribute all that lies in their Power, to find the necessary Supplies, even tho' greater than are now given, and to do every thing that can be expected from Honourable, Good and Hearty Rulers and Confederates, and that they will rather sacrifice their Blood and Treasure, and all they have, than see their Commonwealth, their Liberty and Religion destroyed.

That the said States do earnestly and seriously desire, That their High and Mighty Lordships, to attain so good and wholesome an End, as is before-

beforementioned, will give like Assurances and make like Protestations among themselves, and will invite the States of the other Provinces to give the like to one another, and to make known the same here in this Assembly, for the Satisfaction of every one in particular.

That their High and Mighty Lordships will Zealously Recommend it to the States of the respective Provinces, to amend the Defects that are arisen from the very Constitution of the Republick, which were partly remedied by the Credit, Authority and Exhortations of His said Majesty; and then to endeavour the preventing of all Delays in their Debates, and in their coming to the necessary Resolutions, and Conclusions, all tediousness in obtaining the Consent of the Particular Provinces and Cities, and in finding out the necessary Methods for Raising Money, and above all the great Defect in bringing into the General Treasury the Supplies that are granted.

That moreover, to prevent all Faintness which the said most unseasonable Death might occasion among the Allies of this State, Notice may be given them of the sincere and true Intention of their High and Mighty Lordships to observe Religiously the Alliances made with them, to follow steadily the Contents of the same, and to endeavour with the utmost Vigour and Heartiness to put them in Execution, and that they will persevere in the Measures already taken with them, and are ready to Concert with them such Measures as are yet to be taken, desiring them earnestly, that according to the Example of their High and Mighty Lordships, they will take into their Consideration the present Conjunction, and redouble their Endeavours to prevent in this Hearty and Vigorous Manner all Misfortunes that are feared from the said Mourful Accident; and finally, that the Dangers to which all Europe is exposed, may be represented to such Princes and Potentates who are not yet, or not wholly and entirely engag'd with their High and Mighty Lordships, and that they may be invited into farther Engagements to prevent the same; That for the Purposes aforesaid, Endeavours may be used by the Ministers of this State who are abroad, at the Courts where they reside, and by their High and Mighty Lordships with the Ministers of Foreign Princes and Potentates who are here at the Hague.

That the said States of Holland and West-Frisland cannot doubt, but, in case their High and Mighty Lordships, the States of the respective Provinces, come to Manage the Affairs and Government of this Country with this Affection, Unity and Fidelity, and that the Endeavours beforementioned be used, God Almighty will Bless with all desirable Safety and Prosperity such Councils, and Resolutions and the Execution thereof, as well on the part of this State as of the Allies, and that they are ready with the other Provinces, to consider about taking the first fit time and opportunity to beg the same of Almighty God in a Publick and Solemn Manner.

Which being debated, their High and Mighty Lordships, and the Deputies of the respective Provinces, each in particular heartily thanked the States of Holland and Westfrisland for their Compliment of Condoleance, upon the Inestimable Loss which this State suffers by the Deplo-

able Death of His Majesty of Great-Britain of most Glorious Memory; and particularly for this resolute, hearty, and laudable Declaration of their Intentions, not only to assist in managing the Affairs of their Province in particular, but also those of the whole United Provinces, at home and abroad, with Love, Unity, and the greatest Fidelity, to help to maintain and execute the Treaties made with the Allies, and to stand firmly by the Measures already taken. And their High and Mighty Lordships have moreover declared, That in this perplex Posture of Affairs, into which they are brought by the Death of His said Majesty, nothing could be more comfortable and acceptable to their High and Mighty Lordships than this hearty Assurance, which the abovesaid States have been pleased to give in so full a Body, and solemn a Manner; That their High and Mighty Lordships are of the same Opinion, and do wholly agree with the said States, That in this dangerous Conjunction, the State cannot be freed and saved, nor the Common Cause with the Allies be supported and maintained, unless the reciprocal Love, and Unity and Harmony between the respective Members of this State, and an inviolable Observation of their Union, be laid as the Basis and Foundation of all; and that upon these Grounds, hearty and vigorous Resolutions be taken for the Defence of their Country, and the Support of their Allies; That these Resolutions be put in execution with Firmness and Zeal, the necessary Supplies raised, and a full Assurance thereof given to the Allies; That their High and Mightinesses are resolved, as much as in them lies, to direct their Debates by these Maxims, and with the utmost Zeal and Application to contribute all that is in their Power, to the Preservation of this State in its Liberty and Religion, the dearest Pledges a Man can have here upon Earth; To maintain and put in execution the Alliances and Engagements with the Confederates, and to follow with Constancy the Measures already taken; That their High and Mighty Lordships do not doubt but the States of the respective Provinces will agree with them herein, and will be ready to make a like sincere and hearty Declaration, as is already begun by the States of Utrecht; and to this purpose 'tis thought fit, That they shall be invited thereto by Letter; so that they may thereby give full Satisfaction to each other, and to the People, and may, by all means, the better shew and make appear their Union, Unanimity, and firm Resolution to stand by each other with their Lives and Fortunes, and to endeavour, in Expectation of GOD's Grace and Blessing, to help, with Love, Harmony, and Fidelity, to deliver and save the Common Cause from the present Danger; That the said States shall also be earnestly desired to amend, as much as may be, the Defects which have crept into the Government from its Constitution, and particularly to prevent all Delays in their Debates, and in the taking of the necessary Resolutions, all Tedium in obtaining the Consent of the particular Provinces and Cities, and in the providing of the necessary Supplies for executing the same; and above all things to remedy the great Defect in bringing into

into the general Treasury the Supplies that are granted, and in all respects to supply as much as is possible by their Affection and Zeal for their Country, the Loss which this State has sustained of the Direction, Credit, and Authority of His said Majesty; And the Deputies of the respective Provinces have undertaken to second these Resolutions with all their Power, each in the Province from which he is deputed.

Moreover it is found and judged convenient to declare herewith, That their High and Mighty Lordships intend, and are resolved, to maintain Religiously the Treaties and Engagements entered into with their Allies, steadily to pursue the Contents thereof, and to execute them heartily and vigorously, and to persevere in the Measures already taken with the Allies of this State; and that they are also willing and ready to concert with them such further Measures as shall be expedient; That Notice shall be given to the said Allies of this their High and Mighty Lordships Sincere and True Meaning and Intention, intreating them earnestly, to reflect seriously upon the present dangerous Juncture, and each to redouble their Efforts, to prevent in a hearty and vigorous manner all ill Consequences that may be feared from the Mournful Accident of His said Majesty's Death; That likewise the Misfortunes

to which all Europe is now more than ever exposed, shall be represented to the Princes and Potentates who are not yet, or not wholly and fully engaged with this State, and they shall be invited to enter into stricter Engagements, that we may jointly obviate and prevent the same; That for the Purposes aforesaid, Endeavours shall be used by the Ministers of this State who are abroad, each at the Court where he resides; That to this end Extracts of this their High and Mighty Lordships Resolution shall be sent them, with Orders and Directions, That each of them do declare this their High and Mighty Lordships Intentions to the Court where he resides, or where he thinks it can be of use: That like Endeavours shall be used with the Ministers of Foreign Princes and Potentates, who are here at the Hague, and the Heer *Van Effen*, and the other Deputies of their High and Mighty Lordships for Foreign Affairs, are hereby commissioned and desired to take this Care upon them.

That finally it shall be further considered, what time and opportunity will be most fit, to implore the Blessing of Almighty God upon the Consultations of this State, tending to the Preservation of their Country, and Church.

*It agrees with the  
said Register.*
